Landon Paroli, manager of Legacy Landscape and Design

“Beautiful outdoor spaces are more than trees, shrubs and grass filling empty space...”

In South Mississippi, where our temperate climate is paramount in enticing us outdoors, our home and business landscapes can and should be a relaxing experience. Beautiful outdoor spaces are more than trees, shrubs and grass filling empty space, but rather a well thought-out and implemented plan with the customer's vision and needs in mind.

Legacy Landscape and Design, a full-service landscape construction and maintenance company, consists of experts with experience, education and credentials. The manager, a graduate from Mississippi State University with a degree in landscape contracting, has over 15 years of experience in site development and landscape construction. The construction supervisor, with more than 10 years in the landscape business and the maintenance supervisor, with a degree in turf management and 20 years in the golf industry, lead a trained team that takes pride in providing quality results for every customer. Legacy holds a certificate of responsibility through the Mississippi State Board of Contractors for all areas of

# AND DESIGN

landscape construction and employs a licensed horticulturist and a certified commercial pesticide applicator. In addition, the company is a member of the Associated General Contractors of Mississippi and the Mississippi Nursery and Landscape Association.

Although the Legacy team has worked extensively with government and municipal projects, the company enjoys developing distinctive landscapes for businesses and residences with individual landscape needs throughout South Mississippi. Customers have come to understand the value of aesthetically attractive outdoor spaces that accent their homes or businesses, and the importance a pleasing landscape has on the first impression visitors have when they arrive. In-house designers can customize any space and can work with local architects and engineers to insure their commitment to detail and customer satisfaction. Legacy Landscape and Design offers free consultations and will ensure that each project is completed with quality workmanship and professionalism.

The most visually pleasing landscape designs work hand in glove with the homes or office buildings

they adjoin. Planning your outdoor spaces along with your dwelling, instead of making it an afterthought, will create a seamless transition throughout your entire property. Pathways, seating, focal points, lighting and canopies designed and constructed by a team of experts can turn your business or home landscape from ordinary to extraordinary. Your South Mississippi outdoor spaces will be your welcome mat to customers, family and friends.
